## PROFESSIONAL SUMMARY

Computer Technology student at Multimedia University of Kenya with practical experience in software development, networking, and cloud technologies. Experienced in building web and mobile applications using Django and Kotlin, with additional exposure to machine learning fundamentals, algorithm implementation, and networking simulation using Cisco technologies. Passionate about solving real-world problems through technology and continuously improving technical skills through hands-on projects, certifications, and self-driven learning.

## TECHNICAL SKILLS

- **Programming Languages:** Python, Kotlin, HTML, CSS, JavaScript, SQL
- **Frameworks & Development:** Django, Android Development (MVVM)
- **Tools & Platforms:** Git & GitHub, Android Studio, VS Code, Cisco Packet Tracer
- **Technical Areas:** Networking, Cloud Computing, Machine Learning Fundamentals, UI/UX Design

## PROJECTS

### Django Jewelry E-Commerce Platform

- Developed a full-featured e-commerce web application using Django with authentication, product management, ratings/reviews, responsive UI design, and dynamic product handling.

### Connectify Android Application

- Built an Android application using Kotlin and MVVM architecture focused on connecting users to job opportunities while implementing modern Android development practices.

### Dijkstra Algorithm Pathfinding Project

- Implemented Dijkstra's shortest-path algorithm in Python to calculate optimal routes between multiple nodes, demonstrating strong problem-solving and algorithmic programming skills.

## **CERTIFICATIONS & ACHIEVEMENTS**

- Kaggle Intro to Machine Learning Certificate
- Cisco Networking Academy Certification
- Microsoft Learn / Azure Achievement Badges
- Additional Microsoft Learn Achievement Trophies

## **EDUCATION**

### **Bachelor of Science in Computer Technology**

Multimedia University of Kenya

Year of Study: 2

Expected Graduation: 2028

### **Full stack software developer**

Emobilis institute of technology

Year of Study: 2024

Graduation: 2024 July

## **AREAS OF INTEREST**

- Software Development
- Artificial Intelligence & Machine Learning
- Networking & Cloud Technologies
- Mobile Application Development
